KEEPS ENGINES YOUNG

WOLF MULTIFACTOR OIL SERUM – OUR EXCLUSIVE PRODUCT TECHNOLOGY

Modern high performance engines require a new generation of lubricants capable of maintaining their qualities. To this effect, we have developed our own proprietary technology that contains as many as 20 active ingredients.

Wolf's MultiFactor Oil Serum increases the lifespan of lubricants and keeps engines young. This state-of-the-art technology can be compared to a cosmetic product. It's the sophisticated balance and combined interactions of these active ingredients that have a vitalising effect on the oil over time.

This ensures Wolf lubricants maintain their properties for longer, so that engines can deliver optimum performance between increasingly long service intervals.

- KEEPS ENGINES CLEAN
- IMPROVES ENGINE PROTECTION
- EXTENDS DRAIN INTERVALS
- REDUCES FUEL CONSUMPTION
- LOWERS CO^2 EMISSIONS

OUR OEM EXPERTISE

WOLF PROVIDES HIGH-QUALITY PRODUCTS VALIDATED BY A WIDE RANGE OF OEM APPROVALS

As blending specialists, we excel in bringing you technology-enhanced lubricants that make engines better, faster, greener and cleaner. Over the years we have established unique collaborations with the most prestigious additive companies, giving us direct access to the latest technologies and formulations.

Working with top quality products is the basis of everything we do. The most objective proof of this is our extensive range of more than 100 OEM approvals for different segments (Passenger Car, Heavy Duty On-road and Off-road, etc) and different applications (engine oils, transmission fluids etc).

Our blending plant in Hemiksem is ISO 9001 certified for lubricant production, and offers flexible automated production with fully integrated quality control systems. Uncompromising quality is an integral part of everything we do. At Wolf, no shortcuts will ever be taken in the testing of final products.

+100 APPROVALS

WHAT DOES "OEM APPROVED" MEAN?

An OEM approval is an official proof of a lubricant's quality, which you get when lubricants that meet a certain specification go through an additional round of severe testing by an acknowledged test laboratory. If the characteristics fully comply with the requirements the OEM has set, the product is officially approved.

It's the objective proof and validation that a lubricant is 100 % fit for the desired application.

NEVER MISS A SALE WITH WOLF

We are on top of the latest developments in our rapidly evolving industry and have a history of being first in the aftermarket. Our industry experts keep a close eye on the most recent requirements and trends, and quickly develop the most innovative lubricants accordingly.

We have more than **30** years of **1st fill** experience

PRECISION DRIVES PERFECTION

WOLF, THE OFFICIAL LUBRICANT PARTNER OF THE FIA WORLD RALLY CHAMPIONSHIP

PARTNERSHIP COMMITTED TO THE VERY BEST IN VEHICLE PERFORMANCE AND PRECISION

There is nothing in motorsport to match the diversity, spectacle and sheer excitement of the FIA World Rally Championship (WRC), demonstrating motorsport passion and technological innovation.

Since 2019, Wolf is the Official Lubricant Partner of the FIA World Rally Championship. This partnership builds on Wolf's continued drive for exceptional engineering and precision in everything we do.

What may seem trivial to others is important to us. Preparation, knowledge, attention to detail and a strong team can all make a significant difference. In your business, just as in motorsport, you need to be well-prepared and perfectly in tune with what needs to happen next. It's about leaving nothing to chance. It's about anticipation and taking anything risky out of the equation altogether.

THE ULTIMATE PLATFORM TO DEVELOP THE LUBRICANTS OF TOMORROW

WE BRING RACING TECHNOLOGY FROM RACE TO ROAD

What does this mean for you? Developing lubricants for such prestigious partnerships allows us to engineer sophisticated formulations that will later be introduced in our regular product ranges. Especially with the downsizing of today's engines, it will be key to your success to have products at your disposal that are tested in the most demanding conditions and developed with the latest technologies.
